PROFESSIONAL SUMMARY

I have 3 years and 2 months of experience in building responsive, and user-centric applications using javascript, react, next js and redux. I embrace new challenges as opportunities to learn and grow through practical application of knowledge and skills.

TECHNICAL SKILLS

- HTML, CSS, JavaScript, ES6, TypeScript, React js, Next js, Redux, React Query, Material UI, SQL, Jest, React Testing Library, tailwind, GitHub, Agile Methodology, Front-end Development, UI Development

PROFESSIONAL EXPERIENCE

- **Tractor Junction** Oct 2023 – Apr 2025
SDE-1) *Onsite*
 - Developed and maintained complex UI dashboards using React, next js and TypeScript.
 - Translated Figma designs into interactive, accessible, and reusable components.
 - Collaborated with PMs, developers, and QA in Agile sprints to deliver high-quality features.
 - Attended daily scrum, retrospectives, and product demos to ensure alignment and progress.
- **Bonami Software** Dec 2021 – Aug 2023
Frontend Developer *Onsite*
 - Built dynamic and responsive UIs using ReactJS and Redux.
 - Gathered and analyzed frontend requirements to align design with user expectations.
 - Actively took part in Agile events, including planning sessions, review meetings, and daily stand-ups.

PROJECTS

- **Vehicle Management System (VMS)** vms.tractorfirst.com
React, TypeScript, Redux, formik, material UI, node js, express, mongodb
 - A web application to document the entire process from tractor purchase to sale.
 - Built lead management, OAuth login, procurement and selling modules, admin/user roles, login and dashboards.
 - Implemented state management using Redux and integrated REST APIs.
- **Bike Junction** bikes.tractorjunction.com
Next js, tailwind, strapi
 - Optimized site performance with Next.js code splitting and lazy loading techniques, enhancing overall website speed
 - Improved Core Web Vitals and enhanced user experience by applying Next.js best practices and building modular, reusable UI components for consistency.
- **Parking Bud** parkingbud.com
React, Redux, JavaScript
 - Parking space finding and booking. Parking Bud provides digital parking payment solutions and real-time parking availability.
 - Built UI for customer and providers portals, filters etc. Worked on UI, dynamic forms and api integration.
- **ARED**
React, material UI
 - Developed various UI for portals, including an admin portal, SME portal, and device portal
 - Integrated API endpoints and built responsive analytics pages.

EDUCATION

- **Amrapali Group of Institutes** Haldwani, India
Bachelor of Computer Applications Jul 2015 -Jun 2018
